Title of Submission:	Lateral transfer
Comments:	<p>I wish to propose that lateral transfer arrangements between An Garda Siochana and the PSNI are reformed to allow for transfer, at all ranks, to assist with the modernisation and systematic improvement of the organisation, as per the Policing Authority's objectives and to bring high skill levels, provide fully trained officers and bring added diversity to police services, as per the Garda Inspectorate's report recommendations (2015).</p> <p>It is long overdue that An Garda Siochana become a more open, transparent, accountable, governable and competent police force with outside influence, experience and expertise from outside jurisdictions vital to this. Permitting Police Officers from international police services to become a part of this transition and change is imperative to the success of a modern and fully functioning Garda Siochana.</p> <p>Regards</p>
