

Number 1 - criminal law should change .

Why?

I think Gardai sick of seen same person over and over because justice system just sent criminals back to street in 1 hour.

2- Gardai should also allowed to look after civil matters. Because Gardai does not show up on civil matters this make criminals to play around more.

3- Gardai should act equal to all different citizens.

4 - last think , every time something happens you have only one Gardai to talk I think this is why Gardai on street doesn't have to much time to do their job. Gardai on street should handle the case to an office and update the office , office should give informations to victims /families/ people who needs information about incident.
