Questions for Commission on the future of
Policing in Ireland. [REDACTED]

[REDACTED] Can we have a breakdown on serious road
injuries County by County

2. The overstated breath test, penalty point deductions plus other - is there now a code of ethics to ensure this is not going to happen again.
3. Why do the gardai not answer Saie questions truthfully and in full in a specific time frame - and stop playing around with words.
4. A directive was issued in 2016 by gardai H.Q. that all families involved in road fatalities were to be given a copy of PARC's booklet "Finding your way" - thousands of copies were delivered to gardai HQ - yet we still get requests from families and family liaison officers for these books - 'Who is kidding who'.
5. Surely gardai should have access to hand held devices on the side of the road that will give them access to a central computer with an entire data base on driver and vehicle.
6. An IT System - that ties in gardai, vehicle registration, Road Safety Authority, Dept of Justice, Transhield etc - IT Systems seem to be an issue despite the huge monies being spent.

7. Why do Gardai have such a hang up on giving people a copy of the CBS form. In its present form this has to be filled in within 3 days of event and hence allows a gardai formulate an "opinion" without any investigation. family dangerous precedent here I would think
8. Over the last few years the gardai have stopped bereaved families from getting a recording of the 999 calls. First of all have they the authority to do that and secondly was it done because the last query on a 999 call highlighted gardai negligence in a fatal Road traffic crash.
9. Can all fatal road crash scenes be treated as crime scenes, as what the difference between somebody using a gun to kill somebody as against using a car!
10. That victims be allowed record all meetings with a garda siochana - as when they would do it to their own what would they do to others!

Just because you have a blue uniform on you does not mean you can bully, lie, intimidate.

GSOC not worth anything - gardai - investigating
gardai
